

Izmir Institute of Technology

Electrical and Electronics Eng. Dep.

EE 471 Modern Software Development Practices and Technologies In-class exercise Week #11

Thursday 21/05/2026

Task 1: Read through and implement each step in the following Flutter tutorial to develop your first mobile app (word generator):

<https://codelabs.developers.google.com/codelabs/flutter-codelab-first#0>

IMPORTANT: Push a commit at the end of each completed section (Sections 3-8).

Deliverables (Deadline: Until the end of the lecture):

- 1) Link for your github repo.
- 2) A screen recording video of you running the app on a simulator (or real device).

Task 2: Read through and implement each step in the following Django tutorial to develop your first backend server:

<https://docs.djangoproject.com/en/6.0/intro/tutorial01/>

IMPORTANT: Push a commit at the end of each completed section (Part 1-7; omit part 8).

Deliverables (Deadline: until 24th of May midnight):

- 1) The link for your public github repo.
- 2) A screen recording video of you running the backend server: Demonstrate its functionality by sending requests.
- 3) A screen recording video of you explaining the code blocks used in both tasks (Task 1- Flutter codes & Task 2 – Django codes).
